### ABOUT THIS SPACE

Looks can be deceiving....

From the outside, this looks like your standard issue warehouse space. However on the inside, it's anything but! This space combines charming, original architectural details (casement windows and exposed brick walls) in addition to modern industrial chic elements (concrete floors, exposed slab ceilings and ductwork). Did we mention the almost 7000 square feet of landscaped exterior space!? Sky's the limit (well...technically 20' is the limit inside with these generously high ceilings!) The courtyard and indoor options make this an extremely flexible space. The only thing holding you back from creating a truly memorable event is your own imagination!
